

CARELL SA

SHIPPING & SHIP REPAIRS

Your reliable Greek Partner in Ship Repairs

CARELL S.A.

SHIPPING & SHIP REPAIRS

Piraeus, 7th March 2017

History

Leonidas Vas. Carellis

Leonidas V. Carellis started the ship repair works in Alexandria 60 years ago and after leaving Egypt, he established his company in Piraeus. Due to hard work and marketing in European companies, the business expanded rapidly and has served thousand vessels to date.

Vasilis Leon. Carellis

Vasilis L. Carellis established CARELL S.A. as a continuation of the “Carellis” works founded in 1955 . Since acquiring his degree in Marine Engineering, he has been involved in Marketing and Managing the firm. His main goals are to provide a thorough service, while encouraging improvements and ne developments in the ship repair field.

Leonidas Carellis

Leonidas, along with his brother are the 3rd generation of the company. He possess an MEng in Naval Architecture and Marine Engineering from the National Technical University of Athens and an MSc in International Finance from the HEC Paris. He is mainly involved on the technical side of the ship repairs, overseeing the management of the projects, both from a technical and an organizational acumen.

Haris Carellis

Haris, is the youngest of the Carellis family. He oversees the commercial and financial side of the company. He holds a BSc in Management and Business Administration from Athens University of Economics and Business and an MSc in Shipping, Trading and Finance from Cass Business School, where he graduated with distinction. His previous engagements in banking and specifically at DNB bank have helped him improve both the commercial and the financial management of the company.

About Us

CARELL as a wholly privately owned company, is competent to offer high end quality services with direct communication to the management team due to its flat corporate structure and low prices benefiting from the current Greek economic conditions. Our qualified and highly skilled human capital is capable to find efficient solutions for our clients.

CARELL is following with great care the macroeconomic factors of the shipping industry, thus it has made substantial changes to provide its clients with reduced prices without affecting its long lasting Quality and Performance that has been investing into for more than 60 years.

CARELL Competitive Advantages

- Close cooperation with thirteen (13) docks, four (4) of them state owned
- Flexibility and Strong Negotiation Power with local authorities
- Strategic Location concerning the Mediterranean shipping trade
- Continuous investment in our highly skilled human capital
- Modern repair station of 2,500 sqm in Piraeus
- Direct communication with management team
- One Management Team, One Price List for all Greek Shipyards
- Economies of scale achievement with Fleet Repair Agreement

“Ship Repair is our business for more than 60 years”

Mission & Vision

- **Mission**

Our mission is to offer highly qualitative ship repair and dry-docking services in the most cost efficient and time effective way to our clients

- **Vision**

Our vision is to become the pioneer in the ship repair and marine technical management sector and establish CARELL S.A. as **ONE STOP - ONE SHOP** in the Mediterranean Area.

Quality Management

Quality Stands High in our Corporate Values

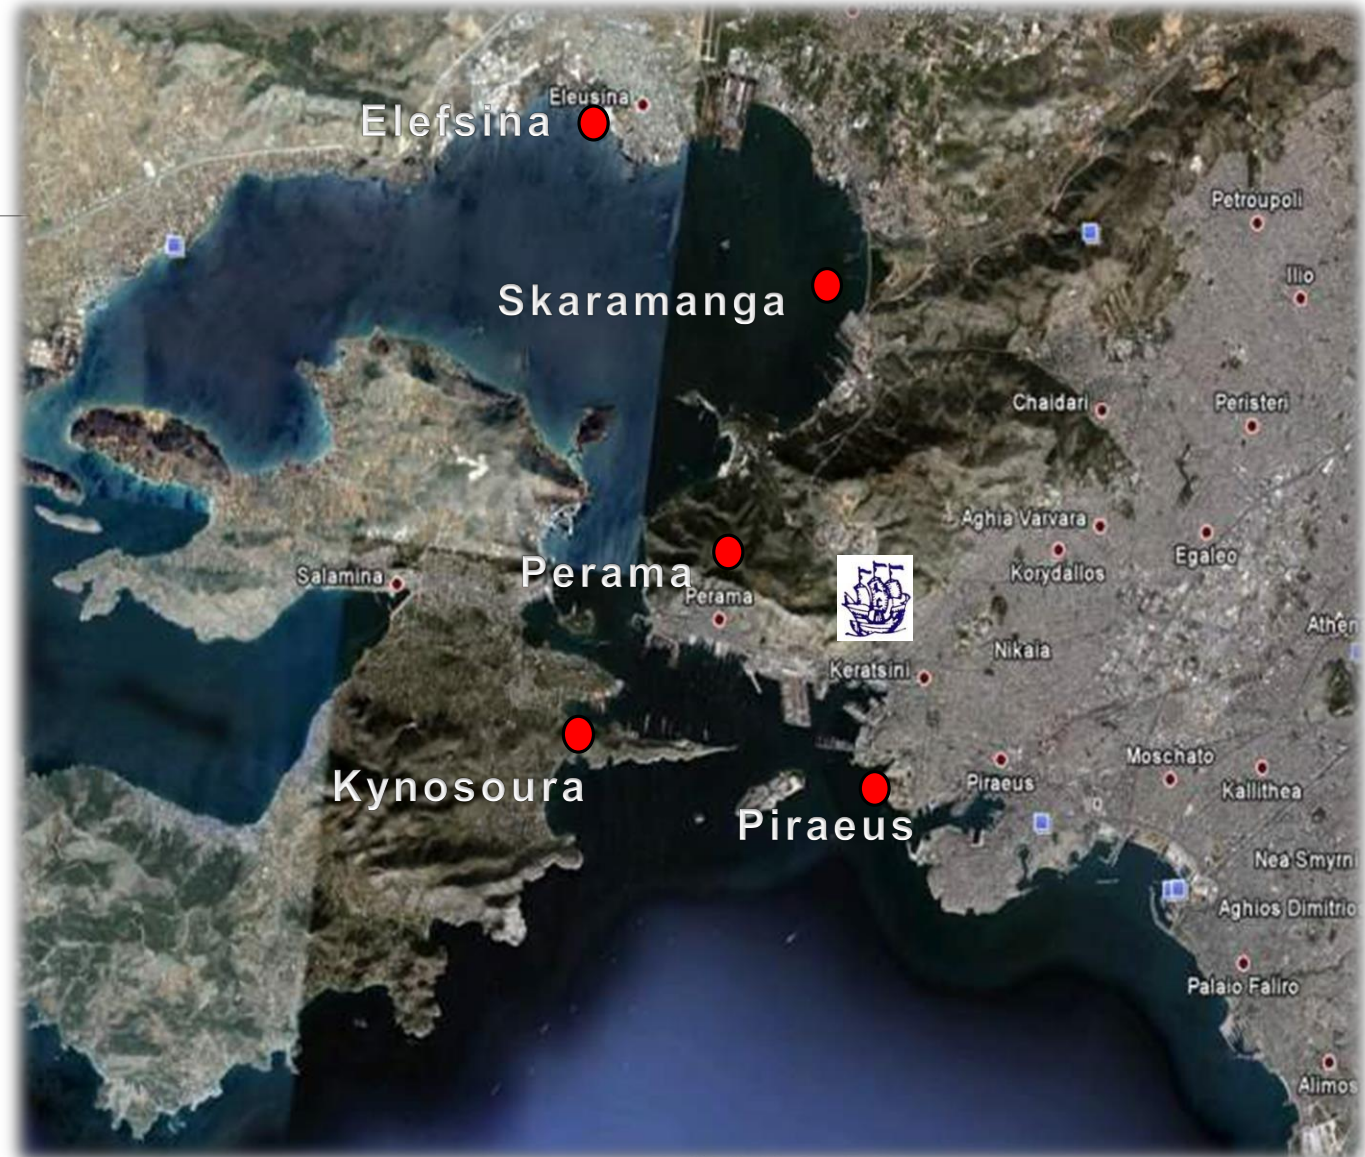

We at **Carell**, continuously invest in improving our technical equipment, training our workforce into the most updated engineering techniques and upgrading our facilities in order to offer high quality services to our trusted clients.

ISO 9001:2008 Quality Management Certificate strengthens our efforts to create a safe environment for ship repairs in the most strategic point in the Mediterranean.

Location

- Easy access to all shipyards and berths in the Area
- Multiple berthing prospects
- Close distance to **CARELL**'s modern workshop
- Short distance from all local suppliers

Dry Dockings

More than 65 years in Dry-Dockings

CARELL is in close cooperation with nine (13) docks, four (4) of them state owned and the rest of them privately owned major shipyards for more than 65 years, thus making us capable of offering the most competitive solutions to our customers.

Our business model, offers the opportunity to our clients to benefit from lower overall cost for all ship repairs and dry-dockings compared to all other shipyards in the area.

Steel Works

Safe & Strong Hulls

Greece was one of the proponents in the ship repair industry, well before the shipyards created in the Far East.

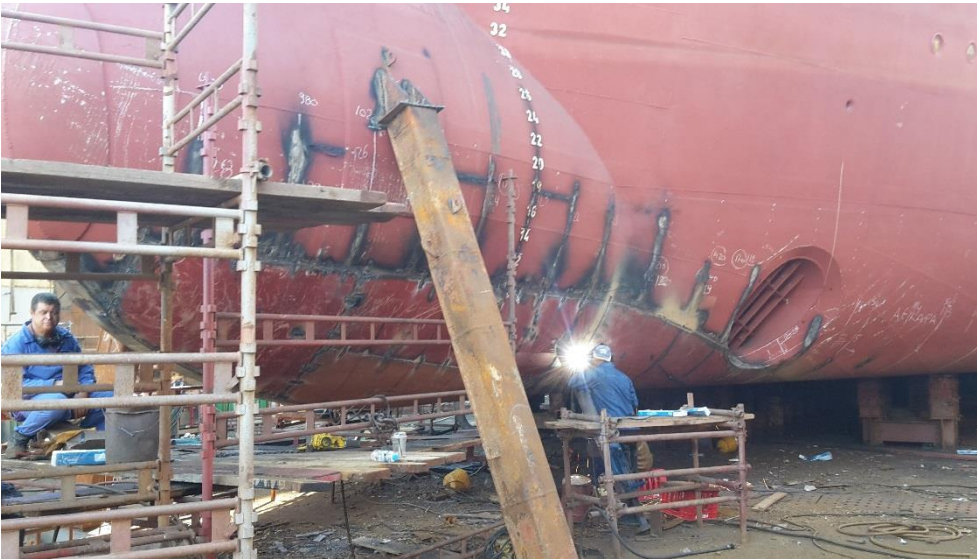

CARELL, with its invaluable human capital can provide competitive steel prices being on par with our competitors in the Mediterranean Area, while at the same time producing supreme results, exceeding the Classification societies' standards

Steel Works

Steel Works

Mechanical Works

Carell's mechanical workshop has been one of the oldest and most reputable in the area of Piraeus. For more than 60 years all mechanical works are carried out in house. Our performance history is a direct result of our people, who possess a vast experience in all types of mechanical works. Our brand new factory of 2,500sqm can support all types of machining processes that may arise during the course of the repairs.

Mechanical Works

Modern 2,500sqm Workshop

Our advanced workshop is suitable for all relevant to repairs and constructions in the Marine and Industrial sectors.

- Cleaning
- Overhauling
- Machining
- Laser Measurement
- Manufacturing

Dear Mr. Carellis,
 I would like to take this opportunity to thank you and your company for the excellent services provided whilst our vessel "HAI" was dry docked in April 2014. Your good team provided the professional repairing and maintenance in the highest workmanship when the above mentioned vessel was in dry dock. All special requirements were directly involved in the repair of the tough work. The professional service and other shipping services were of record.

SOLSTAD OFFSHORE ASIA PACIFIC

Our vessel "Nor Che" was dry docked for Renewal of Class in Greece under the repair management of Carell S.A. in April 2012 at Chalki Shipyard S.A.

The work provided was highly qualified and of works in mechanical, electrical, steel, and other works were performed to the full satisfaction of owners and crew.

The work was smoothly arranged and all was done timely as agreed.

The highly services provided by Carell S.A. were performed effectively with all safety and clearances.

We are pleased to recommend Carell S.A. for similar services in the future.

NOR Offshore Ltd

To whom it may concern,

Nor Offshore Ltd is an integrated shipping company, providing services to the offshore/oil market. Nor Offshore Ltd is based in Singapore.

Our vessel "Nor Che" was dry docked for Renewal of Class in Greece under the repair management of Carell S.A. in April 2012 at Chalki Shipyard S.A.

The work provided was highly qualified and of works in mechanical, electrical, steel, and other works were performed to the full satisfaction of owners and crew.

The work was smoothly arranged and all was done timely as agreed.

The highly services provided by Carell S.A. were performed effectively with all safety and clearances.

We are pleased to recommend Carell S.A. for similar services in the future.

To whom it may concern

I am pleased to have this opportunity to recommend Carell SA as a professional and reliable repair company in Piraeus and not least Mr. Vasilis Carellis with whom I have co-operated for many years to my full satisfaction. Carell SA has carried out larger as well as smaller repair works on four Ro-Ro sister vessels operating in a tight liner schedule, which requires observance of the agreed upon time requirements. The works carried out during these years of co-operation range from dry docking for tailshaft overhaul, retrofit of new turbochargers to main engine plants, repairs after weather damage including production and installation of a new 120 ton heavy derrick, pipe works, steel renewal of a new 120 ton always done to a high quality standard and been approved by the Classification Society without any problems.
